

BGH Brand Asset Summary

A Quick Reference for Partners and Collaborators

(DRAFT)

To-be-determined or -updated, marked with [texts] in yellow background

1. What BGH Is

BE GREEN HEROES (BGH) is a **science-based sustainability education and governance ecosystem**. Its brand assets are designed to represent knowledge, ethics, participation, and long-term systemic thinking—not speculation, promotion, or financial endorsement.

2. Official BGH Brand Asset Architecture

BGH visual identity operates under a structured, layered architecture to ensure clarity between market, ecosystem, governance, and mission functions.

The following are the only officially recognized BGH brand asset categories:

Tier 1 - Market & Protocol Identity

BGH Token Symbol (Market Token Logo)

Used exclusively in blockchain explorers, exchanges, wallets, and token infrastructure environments.

Tier 2 - Ecosystem Functional Identity

BGH Ecosystem Coin Symbol (Learning & Governance Coin Logo)

Represents the learning-centered and governance-driven identity of GHC within the BGH ecosystem.

Used in dashboards, documentation, educational materials, and ecosystem diagrams.

Tier 3 - Coin Classification Representations

UC / MC Family Logos (e.g., UC, m-UC, p-UC, v-UC, MC, MC-c, MC-o)

Used to visually distinguish functional roles and lifecycle states within the ecosystem.

These are supporting identifiers and must not replace the Token Symbol.

Tier 4 - Institutional Identity

BGH Lettermarks (Primary, Single-Color, Letter-Only Versions)

Represent the organization and governance framework.

Tier 5 - Mission & Educational Identity

Green Hero Mascots (Elio, Lina, Niko, Mia)

Represent participation, learning journeys, and outreach narratives only.

Approved Color System (Green + Blue) applies across all tiers.

Asset Download Labeling Standard

To avoid confusion in distribution:

- “Market Token Logo” → Refers exclusively to the Token-Optimized Identity
- “Learning & Governance Coin Logo” → Refers to the Ecosystem Coin Identity
- “Coin Classification Logos” → Refers to UC / MC family variants

3. What Each Asset Represents

Token-Optimized Identity (Market Token Logo)

Represents GHC in blockchain and exchange infrastructure environments. It is the canonical digital asset identifier.

Ecosystem Coin Identity (Learning & Governance Coin Logo)

Represents the participation-based and governance-centered nature of GHC within the BGH ecosystem.

Coin Classification Logos (UC / MC Families)

Represent functional and lifecycle distinctions within the Ecosystem Coin Identity layer.

BGH Lettermarks

Represent institutional authority and governance identity.

Green Hero Mascots

Represent mission, education, and community engagement.

Color System

Green → Environmental sustainability

Blue → Science, evidence, governance, and trust

4. What Is Not Allowed

- Use of mascots in financial, governance, or legal contexts
- Recoloring or modifying assets outside the approved palette
- Altering proportions, symbols, or implied meanings
- Using Ecosystem Coin Symbols or Coin Classification Logos as substitutes for the Market Token Logo in blockchain, exchange, or financial infrastructure environments

5. Authority & Reference

The distinction between Token-Optimized Identity and Ecosystem Coin Identity is defined in the BGH White Paper and must be preserved in all partner-facing materials. For complete rules, definitions, and governance applicability, refer to:

- **BGH White Paper** (foundational authority)
- **BGH Brand Usage Guidelines** (visual and semantic rules)

Only the **latest officially published versions** of these documents are authoritative.

This one-pager is ideal for:

- universities
- NGOs
- media partners
- designers

- translators
- regional coordinators

Document Control

Tier-2 (Governance & Identity) Document

This document forms part of the official BE GREEN HEROES (BGH) documentation framework.

Interpretation and application shall remain consistent with Tier-1 documentation where applicable.

Version: 1.0

Publication Date: [Month Year]
