

# Terms of Use:

## *Security & Compliance Clauses*

**(DRAFT)**

**To-be-determined or -updated, marked with [texts] in yellow background**

### 1. Platform Access and Eligibility

Users may access the BGH Platform subject to eligibility requirements determined by the BGH Organization. Eligibility may vary based on:

- applicable laws and regulations,
- jurisdiction of residence or access,
- KYC requirements (where applicable), and
- risk controls implemented for platform integrity and user safety.

BGH reserves the right to restrict, suspend, or deny access to any user where necessary.

### 2. User Security Responsibilities

Users are responsible for maintaining the security of their devices, accounts, and wallet credentials. Users agree to:

- protect passwords and authentication methods,
- enable multi-factor authentication (MFA) where available,
- never share private keys, seed phrases, or recovery codes,
- verify official BGH channels to avoid phishing and impersonation.

BGH will never request a user's private key or seed phrase.

### 3. KYC / Compliance Requirements

BGH may require KYC to access certain features or services, including (non-exhaustively):

- token distribution mechanisms (if applicable),

- conversion or transfer functions involving Market Coin (MC),
- access to jurisdiction-sensitive features, or
- participation thresholds defined by BGH governance rules.

Users agree to provide accurate information and acknowledge that false or misleading information may result in restriction, suspension, or termination.

## 4. Restricted Persons and Restricted Jurisdictions

Users may be prohibited from participating in certain BGH features if they are:

- residents of restricted jurisdictions,
- subject to sanctions or legal restrictions, or
- otherwise classified as “Restricted Persons” under BGH compliance policies.

BGH may use reasonable screening methods, including residency declarations, verification tools, and compliance checks to enforce these restrictions.

## 5. Prohibited Use

Users must not use the BGH Platform in any manner that:

- violates any applicable law, regulation, or sanction program,
- involves fraud, money laundering, or illicit financing,
- attempts to exploit platform mechanics or smart contracts,
- attempts unauthorized access to systems, data, or accounts,
- harms the integrity, security, or availability of the BGH Platform.

BGH reserves the right to take action, including restricting accounts or reporting to authorities, where required or appropriate.

## 6. Token Mechanics Acknowledgement

Users acknowledge and agree that token mechanics and classifications described in the White Paper may apply, including:

- Mined Utility Coin (MUC) may be issued as Locked upon mining;
- Unlocking may convert MUC into Market Coin (MC-Converted);
- Unlocking may result in immediate reduction of Voting Power (VPo) in equivalent quantity;
- Unlocking is irrevocable and unlocked GHC cannot be locked again.

Users remain responsible for understanding these mechanics prior to interacting with token features.

## 7. Suspensions, Compliance Holds, and Investigations

BGH may temporarily suspend access or impose compliance holds where BGH reasonably determines that:

- fraud, abuse, or prohibited activity is suspected,
- KYC/AML obligations require investigation or reporting,
- platform integrity or user safety may be at risk, or
- technical or security incidents require containment actions.

Such actions may apply to accounts, token transfers, governance actions, or other platform features.

## 8. Data Processing and Privacy

User information may be processed in accordance with the Privacy & Data Processing Notice and related security policies. BGH may collect and retain information necessary to:

- operate the platform,
- meet legal obligations, and
- protect users from fraud and misuse.

Users acknowledge that blockchain activity may be publicly visible and that BGH cannot guarantee anonymity.

## 9. No Warranty; Security Limitations

BGH provides platform services on an “as is” and “as available” basis. While BGH uses reasonable efforts to maintain security and reliability, users acknowledge that:

- cyberattacks may occur,
- software may contain vulnerabilities,
- third-party providers may experience outages, and
- blockchain networks can be subject to congestion, failure, or exploitation.

BGH does not guarantee uninterrupted or error-free operation.

## 10. Amendments

BGH may update these Terms or related security policies at any time to reflect evolving legal, regulatory, operational, or security requirements. Continued use of the platform may constitute acceptance of updated terms where enforceable.

---

### Document Control

#### *Tier-2 (Legal) Document*

This document forms part of the official BE GREEN HEROES (BGH) documentation framework.

Interpretation and application shall remain consistent with Tier-1 documentation where applicable.
